

NAVEEN KISHORE

Product Designer | Enterprise UX | Product Strategy | Figma

+91 7088636493 ◇ Ghaziabad, Uttar Pradesh

nkishor305@gmail.com

SUMMARY

Product Designer with 1.5 years of experience designing enterprise SaaS platforms, web applications, and mobile products from product discovery to high-fidelity prototypes. Experienced in user research, product strategy, information architecture, and AI-assisted design workflows. Passionate about simplifying complex systems and translating business problems into intuitive user experiences.

EDUCATION

Bachelor of Technology (Mechanical Engineering)

KIET Group of Institutions | 2017–2021

2017-2021

SKILLS

Design Skills

User Research, UX Design, UI Design, Product Design, User Flows, Customer Journey Mapping, Information Architecture, Interaction Design, Wireframing, Prototyping, Design Systems, Visual Design, Dashboard Design, Mobile App Design, Web Design, Responsive Design, Accessibility, Usability Testing, Heuristic Evaluation

Product Skills

Product Strategy, Product Thinking, Competitive Analysis, Market Research, Requirement Gathering, MVP Planning, Feature Prioritization, Enterprise SaaS, Design Documentation

Tools & Platforms

Figma, FigJam, Miro, Notion, Airtable, Google Workspace, AI Design Tools, Cursor AI, MCP Servers, ChatGPT, Google Cloud Platform (Fundamentals)

Soft Skills

Problem Solving, Systems Thinking, Communication, Stakeholder Management, Team Collaboration, Critical Thinking, Presentation, Cross-functional Collaboration

EXPERIENCE

Product Designer

JIFFY SOFTWARE SOLUTIONS | 1.5 years

- Led UX and UI design for Metro Muscat, creating responsive web and mobile experiences aligned with business goals and customer needs.
- Led end-to-end product design for a Quick Commerce application tailored for the Ghana market, conducting user research, competitor analysis, market validation, customer journey mapping, and feature prioritization before designing the product.
- Created interactive wireframes, high-fidelity UI designs, clickable prototypes, and presentation-ready product demonstrations using Figma and AI-assisted design workflows.
- Conducted product research for enterprise solutions including Healthcare CRM, ERP Systems, and Learning Management Systems (LMS) to define workflows, user journeys, and scalable product architecture.
- Collaborated with stakeholders to translate business requirements into intuitive user experiences and reusable design components.
- Accelerated design exploration and prototype creation using AI-assisted workflows, MCP servers, and modern design tools.

PROJECTS

Google Cloud Platform Enterprise UX Redesign (Figma | UX Research | Enterprise SaaS)

- Reimagined the navigation architecture of Google Cloud Platform to improve service discoverability for enterprise users.
 - Conducted competitive analysis of AWS and Azure.
 - Created user flows, information architecture, wireframes, and interactive prototypes for complex cloud workflows.
-

Healthcare CRM & ERP Platform (Product Design | Dashboard Design)

- Designed an enterprise Healthcare CRM and ERP platform for patient management, appointment scheduling, billing, inventory management, and operational workflows.
 - Created user journeys, wireframes, dashboards, and scalable interface components for healthcare professionals and administrators.
 - Applied user-centered design principles to improve workflow efficiency and information accessibility.
-

Learning Management System (LMS)

- Researched and designed scalable learning workflows including student onboarding, course management, assessments, progress tracking, and instructor dashboards.
- Developed wireframes and user flows based on user research, competitor benchmarking, and modern educational platform standards.

EXTRA-CURRICULAR ACTIVITIES

- Co-founded a furniture and interior design startup, helping establish the brand identity, customer experience, and initial business strategy before transitioning to pursue Product Design.
- Wildlife photographer and creator of *Detours & Discoveries*, a photography magazine published as an Amazon eBook.
- Hosted a podcast exploring technology, economics, public policy, psychology, and design, drawing on multidisciplinary research to explain complex real-world systems.
- Founded and captained the **Storm Shadows** football club, representing the school in district stadium competitions and multiple inter-school tournaments.

LEADERSHIP

- Led end-to-end product discovery including user research, market validation, UX strategy, wireframing, prototyping, and stakeholder presentations across multiple enterprise products.
- Drove design decisions using research, usability principles, and business objectives while collaborating with cross-functional teams.

CERTIFICATIONS

- Google UX Design Professional Certificate
